ABOUT US

Apex Procuring provides facility support services and building systems solutions to federal agencies. Led by a U.S. Air Force veteran with 10 years of active-duty facilities operations and 27+ years of commercial mechanical engineering experience, we deliver reliable, compliant, and mission-focused services to support VA and federal facilities

CORE CAPABILITIES

Facilities & Building Systems HVAC installation/maintenance/repair • Electrical systems & lighting • Fire protection & alarm systems • Security & intrusion detection • Building automation systems • Facility inspections & site surveys

Building Maintenance & Support Preventive maintenance programs • Emergency repairs • Flooring installation & maintenance • Building equipment services • General facility upkeep • Compliance inspections

Technical & Engineering Support Mechanical design & CAD services • Technical specifications & drawings • Project planning & cost estimation • Quality assurance & inspections • Maintenance procedure development

Procurement & Logistics Equipment & materials sourcing • Vendor management • Supply chain support • Emergency procurement services

DIFFERENTIATORS

Veteran Leadership: Government facilities operations with training across seven specialties: Electrical Systems, HVAC, Construction, Structural, Engineering, Operations, and Fire Protection.

Technical Expertise: Mechanical Engineer with 27+ years progressive engineering experience across regulated industries. Expert in CAD systems, safety standards, and compliance requirements.

Local Presence: Based in Cleveland with immediate response capability to Louis Stokes VA Medical Center and Northeast Ohio community clinics.

Mission Driven: Veteran committed to supporting those who've served through quality facilities services.
